F5 / LOV3 Learning Path Release
We are excited to announce the launch of our new F5 & LOV3 Core Learning Path for our Henny Penny service network. This important learning path replaces our older F5 / LOV3 Technical and Operational differences courses and provides updated and expanded content around the heat, user interface, electronics, auto top off and filtration systems, error codes and troubleshooting of these systems.

Who should take this?
This learning path is **__required__** for each of your service technicians working on LOV3 and F5 fryers. Your technicians can find this in Content Library > click Learning Path.

This learning path takes between 3.5 to 4 hours to complete and can be completed when most convenient over several days. **For Cyber Café team leaders**, please assign this to your technicians and follow up with them to make sure they are progressing with this training.

Languages
This learning path is available in 15 languages (listed below). Click the "CC" button on the video player to select the desired language.

Arabic	Italian	Russian
Chinese (simplified)	Japanese	Spanish
French	Polish	Thai
German	Portuguese	Vietnamese
Hungarian	Romanian	Ukranian

NOTE: Use your browser's "translate-this-page" feature to translate text from assessments to your desired language.

Questions?
We're happy to help. If you are a team leader on Cyber Café and need assistance on checking progress, or don't have a team leader and need to set someone up, let us know at techtraining@hennypenny.com. Happy learning!

Pete Krause – Director of Training and Digital Assets
